To whom it may concern

**Training by Mr Richard Coles of
Richard Coles International Training & Development Consultancy**

We recently had an in-house training conducted by Mr Richard Coles on 'Strategy and Leadership Excellence Development'.

The training was very inspirational, energising, bringing lots of ideas with both substantial and in-depth knowledge, sharing and learning from experience and being practice-oriented.

Content and presentation was consistently of high quality and engaging. Exercises and action plans conducted, the videos and powerpoint were good.

He could extract valid points from the group, attend to questions diligently and provide useful examples and answers.

We would recommend Mr Richard Coles as an experienced and resourceful trainer and expert in his field.

Yours faithfully
